

# Project Overview

- Tucson Electric Power (TEP), as a part of its obligation to serve, is proposing to construct and operate a new 138kV transmission line for the proposed Rosemont Copper operations
- Like any customer requesting service at the transmission voltage, Rosemont is paying for the transmission siting study
- Updated project area – south of I-10 and east of I-19, with lands managed by Arizona State Land Department in conjunction with University of Arizona, Forest Service, Bureau of Land Management, and privately-owned lands under the planning jurisdictions of the Town of Sahuarita and Pima County
- Planning process – includes environmental studies and public input conducted to assist in identification and comparison of alternative transmission line routes and environmental impacts
- Project requires review by the Arizona Corporation Commission's (ACC) Power Plant and Transmission Line Siting Committee resulting in a recommendation to and a final determination by the ACC prior to construction
