

Rider-19
Submetered Electric Vehicle Charging for General Service Customers

AVAILABILITY

Available throughout the Company's entire electric service area where the facilities of the Company are of adequate capacity and electric vehicle charging facilities are submetered at the premise.

APPLICABILITY

To customers taking electric service on one of the Company's General Service time-of-use rate schedules. Service under this rate rider will commence when the appropriate submetering equipment has been installed.

Resale of energy for the use of electric vehicle charging is allowed under this rate rider.

CHARACTER OF SERVICE

Must meet all service requirements for the Customer's otherwise applicable rate schedule.

RATE

Customers taking service on this rate rider must take service on one of the Company's current General Service time-of-use rate schedules. Rates for electric service shall be subject to the terms and charges contained in the Customer's applicable time-of-use rate schedule except for the discounts described herein.

Customers taking service on this rate rider shall receive the following discounts to the effective Off-Peak Base Power Charges for submetered electric vehicle charging during Super Off-Peak time-of-use periods.

Base Power Charge Discount (\$/kWh)	Summer (May-September)	Winter (October-April)
Small General Service	\$0.00750	\$0.00750
Medium General Service	\$0.00750	\$0.00750
Large General Service	\$0.00500	\$0.00500

The Super Off-Peak time-of-use periods are defined as 10:00 PM to 5:00 AM Monday through Sunday.

METERING

In accordance with the Company's specifications, prior to taking service under this rate rider, Customer will be responsible for installing equipment necessary to install a Company submeter to measure, credit, and bill energy used by electric vehicle charging facilities.

TEP STATEMENT OF CHARGES

For all additional charges and assessments approved by the ACC see the TEP Statement of Charges which is available on TEP's website at www.tep.com.
