**SECTION 15  
TEMPORARY SERVICE OR CYCLICAL USAGE**

- A. For electric service of a temporary nature [less than two (2) years], the line extension charges will be the applicable estimated cost of establishing and removing the temporary service, in addition to the regular charges for service which will be billed under the applicable rate schedule. Emergency, supplementary, breakdown or other standby service is not considered temporary and is subject to the provisions of Section 16. Permanent or semi-permanent businesses whose characteristics of operation result in infrequent cyclical usage of energy (e.g., asphalt batch plants, lettuce cooling plants) will require separate contracts with the Company to assure full recovery of the Company's annual ownership cost on the total facilities installed to provide service to the Customer.
