

# Kino to DeMoss-Petrie Transmission Line Project

Please provide your input by Friday, May 22, 2020

Tucson Electric Power (TEP) is developing plans for a new transmission line that will strengthen electric reliability for customers in central Tucson and help satisfy growing energy needs in our community.

TEP is identifying a route for the Kino to DeMoss-Petrie (Kino-DMP) 138-Kilovolt (kV) Transmission Line, which will connect the Kino Substation to the DeMoss-Petrie Substation and interconnect with the planned UA North Substation. The project is designed to improve reliability and power quality, replace aging infrastructure and support the University of Arizona and Banner – University Medical Center Tucson.

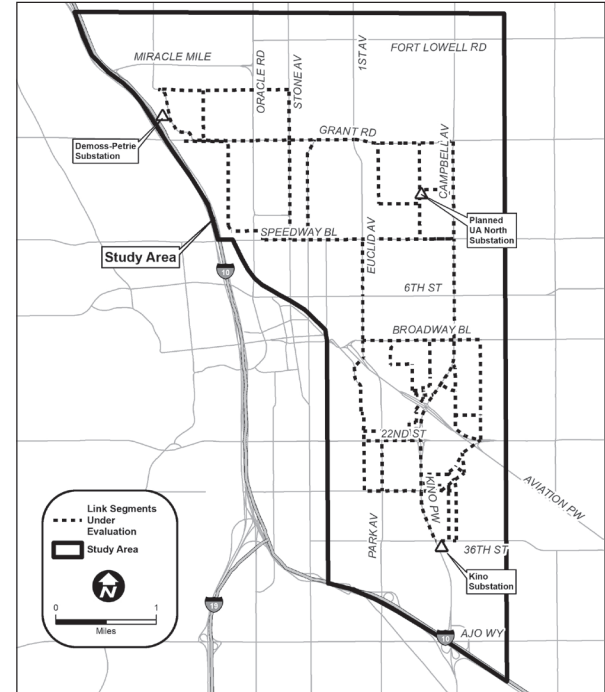

TEP suspended public open house meetings in March as a precaution to limit unnecessary risk of exposure to the COVID-19 coronavirus. Public input remains an important part of the planning process and TEP wants to hear from you.

Please visit the project website at [tep.com/kino-to-demoss-petrie](http://tep.com/kino-to-demoss-petrie) to view an online project update with details about multiple potential line route links that could be combined in various ways to form route alternatives, and eventually a final route. If you do not have internet access, please call us at the number below.

Residents and other stakeholders are encouraged to share their comments by Friday, May 22, 2020 using one of these methods:

- Filling out an online comment form on the project website at [tep.com/kino-to-demoss-petrie](http://tep.com/kino-to-demoss-petrie) (located below the map thumbnail image)
- Sending comments to [KINO2DMP@tep.com](mailto:KINO2DMP@tep.com)
- Calling 1-833-523-0887 and leaving a voicemail
- Mailing a letter with comments to the return address on this postcard

*TEP recomienda a los residentes y propietarios a compartir sus opiniones sobre posibles rutas para líneas de transmisión. Por favor comparta sus ideas utilizando la información de contacto que se menciona arriba. Si tiene alguna pregunta, comuníquese con nosotros al [KINO2DMP@tep.com](mailto:KINO2DMP@tep.com) o 1-833-523-0887. Gracias por su interés en el proyecto.*
