

# Kino to DeMoss-Petrie Transmission Line Project

TEP Updates Potential Routes, Extends Comment Period to Sept. 20

Tucson Electric Power (TEP) has updated the preliminary alternative routes under consideration for the Kino to DeMoss-Petrie Transmission Line project.

Due to planned development on North Vine Avenue, Route 4, Route 6 and Route C have been removed from consideration.

Through continual analysis, a new route was identified for consideration. The new route, 'Route E,' exits the planned UA North Substation and travels west through an existing utility corridor, then south on North Park Avenue, west on East Helen Street, south on North Euclid Avenue, west on East Speedway Boulevard, north on North Main/ North Oracle Road, and west on West Grant Road to the existing DeMoss-Petrie Substation near Interstate 10.

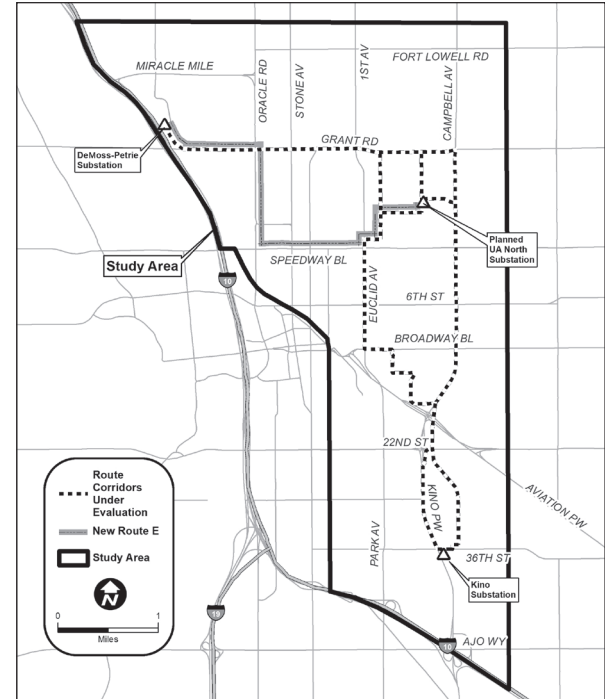

Route E provides another option for the planned transmission line to exit the planned UA North Substation before interconnecting with the DeMoss-Petrie Substation. Detailed maps, including all current routes under consideration, are available on the project website.

TEP also has extended the public comment period to provide stakeholders with additional time to consider these updated route options. Please submit your comments by Sept. 20, 2020 using one of these methods:

- Mailing a letter with comments to:  
P.O. Box 711  
ATTN: Kino-DMP  
Mail Stop RC131  
Tucson, AZ 85701-0711
- Sending comments to [KINO2DMP@tep.com](mailto:KINO2DMP@tep.com)
- Filling out an online comment form on the project website
- Calling 1-833-523-0887 and leaving a voicemail message
