

Tucson Electric Power

Date of Application _____

**APPLICATION FOR SERVICE UNDER THE MARKET PRICING-
EXPERIMENTAL PROGRAM (MP-EX or RIDER 18)**

TEP's Market Pricing-Experimental (MP-EX) Program allows a limited number of medium and large commercial and industrial customers to pay a market-based price for power instead of TEP's standard applicable Base Power charge and Purchased Power and Fuel Adjustment Clause (PPFAC) charge.

TEP will continue to provide generation, transmission, delivery and network services to customers participating in the pilot. Participation, available through two different programs, is limited to 75,000 kilowatts (kW) of load (50,000 kW for LPS/LPS-HV customers and 25,000 kW for MGS/LGS customers). All other provisions, charges, and adjustments in participants' applicable rate schedule and riders will continue to apply.

Upon TEP's acceptance of the application, participants are required to submit a signed contract before service through the MP-EX Program will begin. TEP may require additional information to supplement the application.

The MP-EX Program is subject to review by the Arizona Corporation Commission (ACC), which may amend or eliminate the program in the future. More information about program guidelines, fees and other requirements is available at tep.com/mp-ex.

Application Milestone Dates

- Deadline to Submit Application: September 15, 2023
- Lottery Date (if necessary): October 31, 2023
- Program Start Date: January 1, 2024

Revised 6/23
