

Name _____

Neighborhood _____

Email _____

Instructions: If you don't see a composite suitability model that represents your personal preference, please let us know what would. In the last column of the table titled "My Model", add an appropriate weight as a percent of the total model that represents your values or preference, totalling 100%.

Provide this completed model worksheet to any TEP representative. TEP will create your model and identify the route of highest suitability. The results will be provided to you by email. Your model may be presented during the public open house.

Midtown Reliability Project - Suitability Assessment

Composite Suitability Model

Criteria Models	Balanced	Environmentally Preferred	Cultural/Historic Preferred	Residential Land Use Preferred	Public Preferred	Neighborhood Advisory Group Model 1	Neighborhood Advisory Group Model 2	Neighborhood Advisory Group Model 3	Neighborhood Advisory Group Model 4	My Model	
	 Biology & Wildlife	14.3%	20.0%	8.0%	8.3%	19.0%	20.0%	20.0%	10.0%	20.0%
