

METER SOCKET ADAPTER ACKNOWLEDGMENT

Your chosen Installer has indicated they plan to use a Meter Socket Adapter (MSA) to interconnect your proposed Distributed Generation Project.

Customers are permitted to furnish and install an MSA for the purpose of interconnecting power production or whole home electric isolation, where that device does not impede access to the sealed meter socket compartment or pull section of the customer service panel. The MSA shall be UL 414 Certified and rated adequately for the connected equipment. TEP neither reviews nor endorses any specific MSA. Customer assumes all risk associated with use of an MSA.

I, THE CUSTOMER:

- **Have read the above notice and understand the following:**
 - **My installer has indicated they plan to use an MSA at my premise as a means of interconnecting my Distributed Generation project to the grid.**
 - **TEP does not review or endorses any specific MSA.**
 - **I am assuming all risks associated with allowing the use of the MSA at my premise.**
