

Hearing Before the Arizona Power Plant and Transmission Line Siting Committee
Audiencia Pública ante el Comité de Emplazamiento de Plantas de Energía y Líneas de Transmisión de Arizona

Tucson Electric Power (TEP) has identified its preferred routes for new transmission facilities that will support safe, reliable electric service for the Town of Marana and surrounding area.

The Northwest Marana Reliability Project will include constructing a new, approximately 7- to 9-mile, double-circuit 138-kilovolt (kV) transmission line that will interconnect the Grier Substation to the planned Owl Head Ranch Switchyard, and an approximately half-mile, single-circuit 138-kV line that will interconnect the Grier Substation to a previously approved transmission line that is under construction along West Marana Road in partnership with Arizona Electric Power Cooperative.

Under state law, TEP must secure a Certificate of Environmental Compatibility (CEC) from the Arizona Corporation Commission (ACC) before

building the Project. TEP submitted its CEC application on May 2, 2025 (ACC Docket No. L-00000C-25-0094-00246). The Arizona Power Plant and Transmission Line Siting Committee will review TEP's application at a public hearing beginning at 1 p.m. on Monday, June 16, 2025, at the Northwest Fire District Training Center, 5125 W. Camino de Fuego. The hearing will continue on Tuesday, June 17 beginning at 9 a.m.

Public comment will be taken in a special evening session on June 16, 2025, beginning at 5:30 p.m., telephonically, virtually, or in person.

Please visit the project website at www.tep.com/northwest-marana to view the preferred routes, learn how you can participate in the hearing, provide comments, and view a copy of the CEC application.

TEP ha identificado sus rutas preferidas para nuevas instalaciones de transmisión en Marana. El Comité de Emplazamiento de Plantas de Energía y Líneas de Transmisión de Arizona examinará la solicitud del Certificado de Compatibilidad Ambiental (CEC, por sus siglas en inglés) de Tucson Electric Power para el Proyecto de

Confiabilidad del Noroeste de Marana en una audiencia pública a partir del lunes 16 de junio de 2025, a la 1 p.m. en el Northwest Fire District Training Center, ubicado en 5125 W. Camino de Fuego, se llevará a cabo una sesión especial para recibir comentarios del público, de manera telefónica, electrónico o en persona. El público podrá expresar sus comentarios durante la audiencia a discreción del presidente del comité. Visite tep.com/northwest-marana-espanol/ para ver las rutas preferidas, saber cómo puede participar en la audiencia de forma remota, proporcionar comentarios y ver una copia de la solicitud del CEC.
