

Power up your business with Qmerit's turnkey EV charger installation services.

Want to install EV chargers at your business but not sure where to start? TEP has contracted with Qmerit to provide turnkey EV charger installation services for TEP commercial customers, taking the hassle out of managing your project.

How it works:

Before you begin, check out TEP's [Smart EV Charging Program](#) to see if your project qualifies for rebates!

Express interest in turnkey installation services using Qmerit's [online form](#).

Qmerit will schedule an in-person site assessment with you to discuss your project. A preliminary digital site assessment is also optionally available.

Note: if you proceed with Qmerit's installation services, the site assessment is provided at no cost. If you do not proceed, the site assessment fee is \$750.

Qmerit will work with their network of installers to provide you with a competitive proposal that includes the full design and cost details associated with your project.

Qmerit will manage your project's installation end-to-end, ensuring a seamless and hassle-free experience for you. Qmerit can also provide you with the necessary receipts for your Smart EV Charging Program closeout.
