

Enhance your solar investment with programs that save energy and reduce monthly bills.

TEP offers programs that help you save energy, manage costs, and get the most from your solar investment. Rebates and rewards for smart thermostats, EV chargers, battery storage, and efficient home upgrades make your home more sustainable. Additional options like shade trees, insulation, and flexible billing plans provide even more ways to boost comfort and savings.

Efficient Home Program

Offers rebates for HVAC upgrades, duct sealing, mini-splits, and AC tune-ups to improve home comfort and energy efficiency. Customers can also schedule a free virtual home assessment for personalized energy-saving recommendations.

[Efficient Home Program](#)

EV Charger Rebate

Provides up to \$300 for purchasing and installing a qualifying Level 2 networked EV charger at home. The rebate helps offset costs and encourages clean transportation adoption.

[EV Charger Rebate](#)

Smart Thermostat Rebate

Gives a \$35 rebate each for installing up to two eligible smart thermostat that helps reduce heating and cooling costs by learning your schedule and optimizing energy use. Customers can shop discounted devices through TEP's Marketplace.

[Smart Thermostat Rebate](#)

Smart Rewards Program

Rewards customers with up to \$90 per thermostat annually for allowing brief, automated temperature adjustments during peak demand periods. Participants maintain control and can opt out anytime. \$50 of the prepaid Mastercard is for enrollment and additional \$40 Prepaid Mastercard per thermostat at the end of the season annually.

[Smart Rewards Program](#)

Energy Storage Rewards

Homeowners with qualifying battery systems can earn up to \$720 per year by sharing stored energy during peak demand events. This program supports grid reliability and maximizes battery investment.

[Energy Storage Rewards](#)

Trees for You

Offers up to two shade trees at a discounted price of \$5 each to help reduce cooling costs and beautify neighborhoods. Trees must be planted strategically to provide summer shade and meet program guidelines.

[Trees For You](#)

Efficient Home Water Heating Rebate

Provides a \$400 bill credit for installing an ENERGY STAR® heat pump water heater, which is up to three times more efficient than standard models. This upgrade can cut water heating costs in half.

[Efficient Home Water Heating Rebate](#)

Residential Insulation Program

Offers up to \$800 for installing attic or roof insulation to improve energy efficiency and comfort. Homes must meet specific R-value requirements and use licensed contractors.

[Residential Insulation Program](#)

Auto-Pay

Automatically deducts your monthly electric bill from your checking or savings account, eliminating late fees and saving time. Customers still receive a statement showing the scheduled payment date.

[Auto Pay](#)

Lifeline

Provides a \$20 monthly discount for qualifying low-income customers to help manage electric bills. Eligibility is based on household income at or below 200% of federal poverty guidelines.

[Lifeline](#)

HEERO (Help with Emergency Energy Relief Operation)

Allows customers to round up their bill or make donations to assist families struggling to pay energy costs. Funds are distributed through local agencies to provide emergency bill payment assistance.

[HEERO](#)

Medical Device Alert

Provides priority outage notifications and support for customers who rely on life-sustaining medical equipment. Enrollment ensures added protection during service interruptions.
